Irish Internet Hotline is **Ireland's national reporting centre for illegal and harmful online content**. Since 1999, our trained analysts have assessed reports, worked with law enforcement, platforms and trusted partners to help tackle illegal online content. In June 2026, Irish Internet Hotline was designated as a **Trusted Flagger under the EU Digital Services Act by Coimisiún na Meán**, recognising our expertise and experience in identifying and reporting illegal online content.

When a report is made, our team carefully **assesses the content, takes appropriate action and works with relevant partners to support its removal**, helping to reduce the risk of further harm and revictimisation.
